

## F3C, F3N SUBCOMMITTEE

---

### 2011 Report

Dear all,

As the new chairman of the F3 Helicopter Subcommittee I have only a half-year to look back on. The Subcommittee has been established with the same members as before. The SC consists of 18 members in total.

Horace Hagen has stepped down as a chairman and was honoured by judges and pilots for his many years work at the WC in Italy this year. One of the last thing he manage to do as Chairman was to raise F3N to world championship status.

F3C World helicopter championships 2011 where held in Italy in August with a splendid organization and many pilots. For further details; please refer to the Jury Report.

During the WC the first SC meeting was held. In this meeting different issues concerning next year combined Continental Championship for F3C and F3N was discussed. It was decided to make a new closed SC discussion site. Laurent Lombard was appointed to organise this and has done a splendid job.

The chairman has attended the German Heli-master this year to be more informed of the new F3N class next year.

#### Documents for 2011

- 1) Draft 3 2012-2013 VOLUME F3 Helicopters
