

CIA Plenary Meeting March 2014

Proposal to make mandatory World-, Continental- and WAG Championship Test events an integral part of the Championship sanction.

(This topic was deferred from the 2013 CIA Plenary Meeting)

In order to guarantee FAI and CIA high quality Championships, organised in accordance with the FAI and CIA standards, it is proposed to oblige event organisers to organise a Championship Test Event prior to every sanctioned Championship, and to make Championship Test Events a mandatory part of the Championship bidding and sanctioning process.

The Test Event shall:

- be sanctioned as FAI CAT1 Event with the Championship sanction,
- not be subject to the payment of a separate sanction fee or performance bond,
- take place at the same location and venue as the Championship and, if possible, during the same period the year prior to the Championship,
- make use, as far as possible, of the same personnel resources as for the Championship,
- have the same Event Director as the Championship,
- have a CIA appointed Jury President, and at least two other CIA approved Jurors
- have the same CIA EDS Technical Advisor for the Test Event and the Championship

The CIA may, on a motivated request by the Championship organisers, decide to waive the obligation to organise an FAI CAT1 Test Event

The CIA Rules Subcommittee, Jury Board and EDS are tasked to propose the required regulations and appropriate Sporting Code amendments/modifications to the CIA Plenary Meeting in 2014.
