### Arrival day for FAI/ ISC Officials

On Wednesday 22nd October the championships preparations in Ji'an were on full swing while the FAI Controller Rainer (Exi) Hoenle, the Chief Judge, Jana Matejkinova and a number of judges and early bird participants arrived in Ji'an at Jinggangshan Airport. (pix 1 arrival CJ and other ISC Officials, pix 2 check in)

The first meeting point is the helpdesk in the hotel lobby of Grand Skylight Hotel Ji'an. At the helpdesk some volunteers who can speak the language of the participating nations are always present and also the info board for transport and daily schedule is located there. (pix 3 helpdesk)

In the afternoon a first visit on the dropzone at Tong Ping airport took place. The Meet Director Ou Junwu and Niu Wen, the Deputy Director of Skydiving Department of Aero Sports Federation of China and ISC delegate showed the present ISC Officials all planned venues and some fine tuning about the dropzone and competition schedule was agreed.

The teams could explore the city of Ji'an and prepare for the next 10 days (buy SIM cards, change money or just look around) before all met at the dinner in the hotel. During the competition the lunch will be prepared by the same hotel chef and be delivered to the dropzone. (pix 4 dinner)

The next day will be used for finalizing the dropzone setup and if the weather permits in the afternoon to have training jumps for the already present teams. The volunteers will continue to pick up all participants at the airport or train station,

#### Official Arrival day

On Thursday 23<sup>rd</sup> October the remaining delegations and members of the judge panel arrived in Ji'an.

The setup of all necessary dropzone installations at Tong Ping airport continued and will be inspected on 24<sup>th</sup> Oct during training day operations by the FAI-Controller and the Chief Judge.

The gear checks started with the teams already on site, but due to high winds no training jumps could be made. (pix 2: gear check)

The Meet Director had a meeting with the Chief Judge and the two Event Judges and they agreed on the schedule for the training day as well as other manifest procedures and the startlist. (pix 3: MD, CJ, EJs meeting)

In the evening the local organizers lead by Ms. Zhou Mi, the Vice Mayor of Ji'an Municipal People's Government invited the present FAI officials to a dinner with Chinese specialties. It was an opportunity to thank the local organizers for their hospitality and efforts in preparing the FAI World Cup and Asian Championships. (pix 4 welcome dinner)

During the dinner the FAI officials could confirm that the goals that were mentioned during the press conference one week ago are truly achieved already now before the official start of the championships on 25<sup>th</sup> Oct.

The 16<sup>th</sup> World Cup and 1<sup>st</sup> Asian Championships will further contribute to be “*a bridge for cross-cultural exchange, broaden the breadth and depth of Jiangxi's international cooperation and showcase China's image and Jiangxi's charm to the world.*”

quote from press release at WeChat - Jiangxi Sports October 17, 2025, full text and pix 1 is attached)

The next day 24<sup>th</sup> Oct will be busy with rehearsal of the opening ceremony, with gear checks and if the weather permits also training jumps. In the evening of 24<sup>th</sup> the Official Team Manager Meeting will mark the official start of this FAI First Category Event.

annex 1

**A press conference for the 16th FAI Style and Accuracy World Cup 2025 was held in Nanchang.**

*copied and translated from WeChat - Jiangxi Sports October 17, 2025, 09:18*

On the morning of October 17, a press conference for the 16th FAI Style and Accuracy World Cup 2025 and the 1st Style and Accuracy Asian Championships was held in the press conference hall of the Provincial Government Information Office.

The press conference was presided over by Xu Cheng, Director of the External News Department of the Provincial Party Committee Propaganda Department, and Jin Ziwei, Member of the Party Leadership Group and Deputy Director of the Provincial Sports Bureau, announced and introduced relevant information. Zhou Mi, Deputy Mayor of Ji'an Municipal People's Government, Qu Junwu, Head Coach of the Chinese National Skydiving Team, and Li Quansheng, Director of the Ji'an Municipal Education and Sports Bureau, attended the press conference and answered questions from reporters.

The 16th Style and Accuracy World Cup is one of the highest-profile and most competitive events in international aviation sports. Held every two years, it brings together the world's top skydivers. This is the first time this event has been held in Jiangxi, marking another exciting appearance for Jiangxi on the international sports stage and opening a new chapter for the development of aviation sports in our province.

This event is hosted by the International Air Sports Federation (FAI) and co-organized by the Air Traffic Control Center of the General Administration of Sport of China, the Chinese Air Sports Association, the Jiangxi Provincial Sports Bureau, the Ji'an Municipal People's Government, and the Jiangxi Flight Academy.

The seven-day event will be held at the Ji'an Tongping General Airport from October 25 to 31, 2025. To date, approximately 120 athletes from 12 countries and regions have registered to participate, including several world-ranked teams (Qatar, Germany, China, and Austria), as well as representatives from countries and regions along the Belt and Road Initiative.

The competition features two major events: Freefall Style and Accuracy Landing, with a total of 16 sub-events, including men's and women's team Accuracy, men's and women's individual Accuracy, men's and women's individual Freefall Style, men's and women's national team events, men's and women's individual all-around, youth men's and women's individual Accuracy, youth men's and women's individual Freefall Style, and youth men's and women's individual all-around.

In accordance with the General Administration of Control's Air Traffic Control Center's organizing requirements, this year's Style and Accuracy World Cup and the first Style and Accuracy Asian Championships will be combined into one, with separate admissions and no change in schedule.

At the press conference, Jin Ziwei mentioned the three highlights of this year's Style and Accuracy World Cup.

The first is high-quality support. As one of the core events accredited by the International Aeronautical Federation (FAI), the Style and Accuracy World Cup is being held in Jiangxi for the first time. Ji'an, with its favorable airspace, comprehensive support, and extensive experience in organizing events, will be the host city. The Style and Accuracy World Cup will be built according to international standards, adhering to the principles of "safety, professionalism, excitement, and openness" to ensure a safe, orderly, professional, and efficient event.

The second is high-quality integration. Leveraging Jiangxi's advantage as a pilot province for low-altitude airspace management reform, we will promote the deep integration of skydiving with the general aviation industry and tourism culture, injecting sports momentum into our province's efforts to build a "strong aviation province." By implementing the "sports-to-health, sports-to-tourism, and sports-to-culture" strategy, combined with "sports + culture and tourism" events like carnivals, we will promote the transformation of the competition from a "professional competition" to a "national festival," inspiring young people's passion for aviation technology and sports, and promoting the popularization and

development of skydiving.

Third, high-level openness. This year's competition has specially invited teams from Belt and Road Initiative participating countries such as Mongolia, the United Arab Emirates, and Qatar. Using sports as a link to expand international cooperation, we will promote sports as a bridge for cross-cultural exchange, broaden the breadth and depth of Jiangxi's international cooperation, strengthen the role of sports as a liaison in diplomacy, culture, and trade, and showcase China's image and Jiangxi's charm to the world.

#### Official Training day and Team Manager Meeting

On Friday 24<sup>th</sup> October some late arriving participants and teams who had problems with their flight connection arrived at Ji'an Jinggangshan airport and checked in at the dropzone at lunchtime.

The morning was dedicated to a rehearsal of the opening ceremony which will take place on Saturday 11am in front of the hangar at Tong Ping airport in presence of a number high ranking local dignitaries from Ji'an and Jiangxi province. The good news for the athletes is that all will be seated behind their country signs and watch the performances and official speeches (pix 1 & 2 opening ceremony setup)

Already the road to the airport is decorated with flags and signs to lead the way from Ji'an city out to the dropzone, where an impressive setup of temporary infrastructure for this 16<sup>th</sup> World Cup of Style and Accuracy landing was completed today. (pix 3&4 road signs to the dropzone)

Unfortunately no training jumps could be accomplished because of a temporary airspace restriction and the Meet Director explained that the guaranteed airspace for the competition will be granted for the competition days. So at 4pm the standby on the dropzone was called off and the Official team Manager Meeting was re-scheduled to the evening in the Grand Skylight hotel.

The meeting took place in a friendly atmosphere and the usual information about exit commands, wind speed and jump procedures was given and the draw for the Freefall Style competition was made.

All startlists were finalized and the startnumbers handed out to the teams.

As there is a strong WiFi connection at the dropzone, all results can be followed online at [Airshots](#) result site as well as on a big screen behind the target area and the official result lists will be uploaded to the [ISC/FAI result portal](#).

The schedule for Saturday 25<sup>th</sup> will be to start the missing training round at 08:00 followed by 1<sup>st</sup> round of Accuracy landing competition. From 10:30 until the end of the opening ceremony which will include a spectacular skydive display and firework there will be a break and then we hope to continue with the competition from noon until sunset.

### Opening Ceremony and 1<sup>st</sup> Competition day

On Saturday 25<sup>th</sup> October the Aero Sports Federation of China impressively showed that they are excellent organizers of FAI First Category Skydiving events.

The first load had wheels off the runway at 08:00 sharp and the training round with one accuracy jump for every competitor was completed quickly. Then a male team accuracy round immediately followed before the break to the Opening Ceremony. With such efficient flight operations and flawless manifest operation all the competition rounds can be completed in good time (if weather permits of course)

The Official Opening Ceremony was started right after with traditional dance exhibition from Chinese history. Then at 11:00 the official part of FAI protocol was followed with FAI anthem and some speeches and after the oath of athletes and officials the Governor of the Province Jiangxi, Mr. Shi Ke declared the 16<sup>th</sup> FAI World Cup and 1<sup>st</sup> FAI Asian Championships of Style an Accuracy Landing open. The official ceremony was concluded with a firework followed by a Paramotor and Skydiving airshow.

In the afternoon the competition was continued and due to increasing wind speed the Freefall Style competition was started. But soon the cloud base did not allow further Style jumps, so Accuracy continued as the wind was within the limits until the end of the day. In total 3 rounds of Accuracy could be completed for all male and female teams and individual participants.

The current leader in male Team Accuracy is the team of UAE in front of Germany and China. All results are online at [Airshots](#) result site and the official result lists are uploaded to the [ISC/FAI result portal](#). <https://results.worldskydiving.org/competitionset/1084>

The schedule for Sunday 26<sup>th</sup> will be breakfast at 06:00 departure from the hotel at 06:50 and first take-off at 08:00 with competition until sunset.

### 2<sup>nd</sup> Competition day – Full Accuracy Landing (AL) day

On Sunday 26<sup>th</sup> October the weather over Tong Ping airport had a cloud base at +/- 1000m and low winds, so from 08:00 till 17:20 teams were constantly dropped above the target.

The dropzone facilities with two lunch tents (one for Halal and the other for Western food) have a very high standard and are part of the temporary infrastructure that was built up for this World Cup and Asian Championships. Also the team tents with view to the target and the packing area have been set up in very close walking distance and less than 100m from the manifest and loading area. The Tong Ping dropzone is surely capable of hosting even bigger FAI First Category Events.

During lunchtime and in the afternoon the Meet Director slowed down by using only one airplane but towards the end of the day again used two P-750 again to complete 5 full rounds for today.

With 8 rounds completed, the Team Accuracy competition could be finished and the first World Cup Winners and Asian Champions could be declared.

In the 16<sup>th</sup> World Cup Male Team AL competition it was a thrilling match. With 7 Teams just a few cm apart and the chance to reach the podium, the leaderboard changed in every round. Even in the last round we could see a change of the Top 3 positions with:

**China 1 (32cm)** as Winner of the 16<sup>th</sup> World Cup, followed by 2<sup>nd</sup> **Germany (38cm)** and 3<sup>rd</sup> **UAE (40)**. Austria with a total of 41cm was on 3<sup>rd</sup> place after 7 rounds but with 5cm in the last round lost Bronze medal against UAE who scored 3cm. Official ISC results at;

<https://results.worldskydiving.org/competitionset/1084>

In the female World Cup **China 1 F** scored only **33cm** which would have been 2nd place in the male list.

**Summary:** **China** is the **male and female Winner** of 16<sup>th</sup> World Cup and by that of course also 1<sup>st</sup> Asian Champion in Team Accuracy landing.

The plan for Monday 27<sup>th</sup> Oct is to start at 08:30 with Freefall Style if the cloud base is high enough. If there would again be weather that allows only Accuracy Landing, also all individual winner titles will be disputed after a semi-final (30 male, 15 female) and a final round (with 15 male & 8 female)

#### 3<sup>rd</sup> Competition day – Accuracy Landing almost completed

On Monday 27<sup>th</sup> October the weather over Tong Ping airport again had a cloud base too low for Freefall Style. Although it was tried and the cameras were ready, the jump plane had to return because the 2200m exit altitude could not be reached.

Then it was tried to start Accuracy but the wind reached the 7m/s limit several times so it was decided to wait. Competitors socialized, group pictures were taken and the spirit on the dropzone was still high.

After lunch the wind speed dropped and the Semi- and Final rounds of Individual Accuracy could be finished besides a few tie break jumps.

**Liao Yuting** from China is the Winner of the 16<sup>th</sup> World Cup in Female Individual Accuracy Landing with **9 cm** out of 10 jumps. 2<sup>nd</sup> and 3<sup>rd</sup> place goes as well to Chinese team members with 12 and 13 cm.

For the Junior Female a thrilling tie break with **Zoe Stoll** from Germany and **Cui Qi** from China on first place is still not finished due to a missing technical re-jump for Qi that could not be completed before sunset. Zoe scored a dead center so she relaxed can wait for tomorrow. But in case Qi would score a dead center as well, they have to go into another tie break.

In the male individual final round the fight for the podium places for the World Cup was also very close. **Yu Rui long** from China scoring a total of **6cm** is the Winner of the World Cup. On 2<sup>nd</sup> place another Chinese team member **Zhang Kaiyuan** with **7cm** and 3<sup>rd</sup> **Magnus Falk** from Sweden with **8cm**.

The Junior Male Worldcup Winner is **Michael Urban** from Austria with **14cm** out of 10 rounds. The fight for 2<sup>nd</sup> place is still open because **Wei Gaoqi** from China and **Elias Kammer** from Germany are tied with 16cm and they have to jump tomorrow until the tie is broken.

In the Asian Championships all podium positions were taken by Chinese participants with the exception of 3<sup>rd</sup> place in Male Individual Accuracy for **Mohamed Alsuwaidi** from UAE with **12cm**.

**3 pix:** 1) Style cameras ready, 2) participants, 3) Magnus Falk; last jump with 0,00

### 4<sup>th</sup> Competition day – Style two rounds male, 3 rounds female

On Tuesday 28<sup>th</sup> October the cloud base was high enough for Freefall Style so after the remaining Accuracy tie-breaks in Junior classifications the first and second round of Style was jumped. Then the Meet Director had to wait for the results to determine which athletes did not reach the limit of 17 seconds total (male) and 20 seconds (female)

Only the remaining 10 female jumped round 3 and 16 male competitors will do the same tomorrow morning.

An interesting fact of this World Cup in Style and Accuracy Landing is the ratio of participants who do Accuracy only is 23% while those who participate in Style and Accuracy and by that also in the Overall are 77%. With 64 participants in Style this ISC FCE is a good sign for the future of Style & Accuracy, the oldest ISC discipline which is unique to combine freefall skills and canopy control.

The tie in Female Junior Accuracy was broken when **Cui Qi** scored 1 cm. **Zoe Stoll** from Germany did a dead center already and so she is the Winner of the World Cup in Female Junior Individual Accuracy with **16cm** out of 10 jumps.

The World Cup in Male Junior Individual Accuracy needed two tie break jumps to decide 2<sup>nd</sup> and 3<sup>rd</sup> place. The winner was already cleared with **Michael Urban** from Austria as World Cup Winner on the evening before. **Elias Kammer** and **Wei Gaoqi** both scored 1cm in the first tie break round and then Wei Gaoqi secured the 2<sup>nd</sup> place with 1cm again but Elias 2cm.

With these last ties finally broken, the Accuracy competition of the 16th FAI World Cup and 1st FAI Asian Championships was complete. Several continental FAI records for Asia, Oceania and Europe were broken and will be claimed by the Jury.

All official results are at: <https://results.worldskydiving.org/FrontEnd/CompetitionCollection/1084>

The Freefall Style Competition will be continued tomorrow morning with semi- and final rounds but already in the first two rounds five FAI continental records were established or broken in different categories.

4 pix: 1) Style Video 2) all participants, 3) FAI Officials and Support staff, 4) Local Organizing team

On the official ISC result page all videos can be watched in normal speed and slow motion in the same way as the judges make their assessments and then the scores are displayed inside the video.

#### 5<sup>th</sup> Competition day – Style

On Wednesday 29<sup>th</sup> October before noon it was possible to jump Freefall Style. The 3<sup>rd</sup> round of male and 4<sup>th</sup> round of female Style could be completed.

Then the predicted clouds and later in the afternoon rain arrived, so the Meet Director ended the day and sent the buses back to the hotel. There would be only 3 loads with the semi- final competitors to finish the whole program, but the weather forecast does not look too good.

The final decision will be made in the morning at 8am, then the judges and competitors will either leave for the dropzone, or the game is over.

All result lists are already online with the current standings at:

<https://results.worldskydiving.org/FrontEnd/CompetitionCollection/1084>

The 16<sup>th</sup> World Cup has Germany as the current leader of the Nations Overall (Team Overall) which is calculated from the best four places of the team members in Individual Overall (27 points).

China1 is just two points behind on 2<sup>nd</sup> place will for sure hope for more jumps tomorrow because the ranking in Freefall Style quickly can change with just hundredths of seconds difference between the top athletes. Austria is on third place of the Team Overall, China 2 4<sup>th</sup> followed by Spain, UAE and Qatar.

In the individual overall Yu Ruilong from China is instead of the World Cup with the ideal score of 1+1 which means he is the winner of Accuracy and current leader in Style competition. In Style he finished the three rounds with an average of 5,71 sec and with two more such fast jumps he could break his own FAI World record of 28,19 sec from the last World Cup in 2023.

Chinese ladies dominated the Style event and Wang Yuting, who is still a junior broke the FAI junior performance World record with 6,28 sec. All female medal places in Style and Individual Overall are currently occupied by Chinese athletes. It can be expected that the Chinese anthem will be well known by everyone after the award ceremony that will take place on Friday afternoon, followed by a banquet in Chinese style with turning tables.

**1 pix: Style Video**

On the official ISC result page all videos can be watched in normal speed and slow motion in the same way as the judges make their assessments and then the scores are displayed inside the video.

#### Final day bad weather – Closing Ceremony

On Thursday 30<sup>th</sup> October the weather was as in the forecast. Low clouds and rain so the Meet Director called for a Teamleader meeting at 08:30 and everyone was released until the Opening Ceremony. The official results were announced by the Chief Judge and after two hours the World Cup and Asian Championships were valid. <https://results.worldskydiving.org/FrontEnd/CompetitionCollection/1084> The Overall results remained unchanged with 3 rounds of male and 4 rounds of female Style. The overall calculation is done by adding the individual rank of Accuracy and Style and the winner is the one with the lowest total.

The S&A Committee Chair Gerhard (Conan) Wagner called everyone to the open meeting (also known as competitor's meeting) that is mandatory held at every First Category Event. The meeting started at 15:30, some future rule changes were discussed and Conan together with the two present members, Bruna and Ulf is looking forward to next year's World Championships in Slovakia.

At 16:30 the award ceremony in the grand ballroom of the Skylight hotel was opened by the Organizer and ISC Delegate for China Mr. LIU Wen in presence of the town mayor of Ji'an and other officials. After a dance performance in traditional dresses, the Jury has declared the FAI Championships valid and the award ceremony for all World Cup Winners and Asian Champions took place.

As expected the Chinese anthem was the one played most because China had two strong teams in the World Cup which of course also were on top of the 1<sup>st</sup> Asian Championship rankings. But also German and Austrian hymn could be heard with the most prestigious Nation Overall going to Germany.

A very emotional moment was when Swedish Magnus Falk could climb on the podium to receive the bronze medal in the World Cup individual accuracy. Magnus is many years participating in FAI events and today in addition to his first FCE medal also celebrated his birthday together with his wife Meylin Sanchez who was on the judge panel.

Looking back to the past week, we could experience a well organized FAI Championship full of friendly hospitality and happy competitors in spite of the challenging weather.  
 Thank you ASFC !
